Subject: RE: EPA Region 6 Request to not receive copies of reports

It applies to all facilities in Region 6 states. EPA will continue to receive paper copies of Title V certifications and deviation reports. Part 70 does not allow us to waive receipt of those items. We must also continue to receive NSPS JJJJ and MACT ZZZZ engine testing reports and notifications **for AR and OK only**, and we must continue to receive well notifications and annual reports **for NSPS OOOO for NM and NSPS OOOOa for all Region 6 states. NSPS OOOO/OOOOa notices and reports must be sent electronically to R6WellCompletion@epa.gov. We do NOT accept paper copy submissions any longer.** Also, **DO continue to report through CEDRI/ERT/CDX** for those rules which require electronic submission. For all other NSPS and NESHAP rules for which the state is delegated, discontinue all courtesy copies. Thanks for asking about this.

Subject: EPA Region 6 Request to not receive copies of reports

Ms. Diana Lundelius,

Could you help provide guidance associated with the attached letter? Specifically, should this guidance apply to all of our facilities within Region 6 or should we wait to receive a formal letter from the EPA for a specific facility?

This letter is to request that DCP Midstream GIDDINGS GAS PLANT no longer submit courtesy copy annual and periodic compliance reports, notifications, or related correspondence to the Environmental Protection Agency (EPA) Region 6 for delegated Part 60 New Source Performance Standards (NSPS), delegated Part 61 National Emission Standards for Hazardous Air Pollutants (NESHAP), or delegated Part 63 NESHAP regulations. In accordance with delegation agreements between EPA and the State of Texas, EPA Region 6 has waived receipt of these reports and notifications. To view the Federal Register notices concerning delegation of authority to the State of Texas, follow the link for *Delegation Documents for State of Texas* provided here: <https://www.epa.gov/tx/region-6-delegation-documents-state-texas-0>.

Sincerely,

John Cook
Environmental Manager- Permian Basin
